

Managing research facilities at the Barcelona Science Park

Jesús Purroy – Wrocław – June 16, 2010

Barcelona Science Park

75 Companies / 9 Technological Platforms / 36 Technological Units / 3 Research Institutes

The Barcelona Science Park is a meeting point for universities, companies and society to foster innovation, mainly in life sciences

75 Companies / 9 Technological Platforms / 36 Technological Units / 3 Research Institutes

Objectives:

- To foster high-quality research backed with a wide range of technology support.
- To bring dynamism to relationships between university and business
- To drive the creation of start-up companies and new institutes
- To promote the science in society dialogue and the scientific vocations

Fundació Parc Científic Barcelona:

With the support of:

The PCB, today

75 Companies

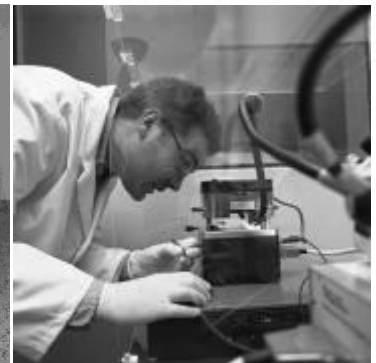

9 Technological Platforms

36 Technological Units

3 Research Institutes

2.200

professionals working on R+D+I

75 Companies

9 Technological Platforms

36 Technological Units

3 Research Institutes

Companies

Platforms

Laboratories

- High-Quality research
- Spin-offs and start-ups
- Collaborative research
- Joint laboratories
- Mobility of personnel
- Joint ventures and alliances...

9 Technological Platforms

36 Technological Units

3 Research Institutes

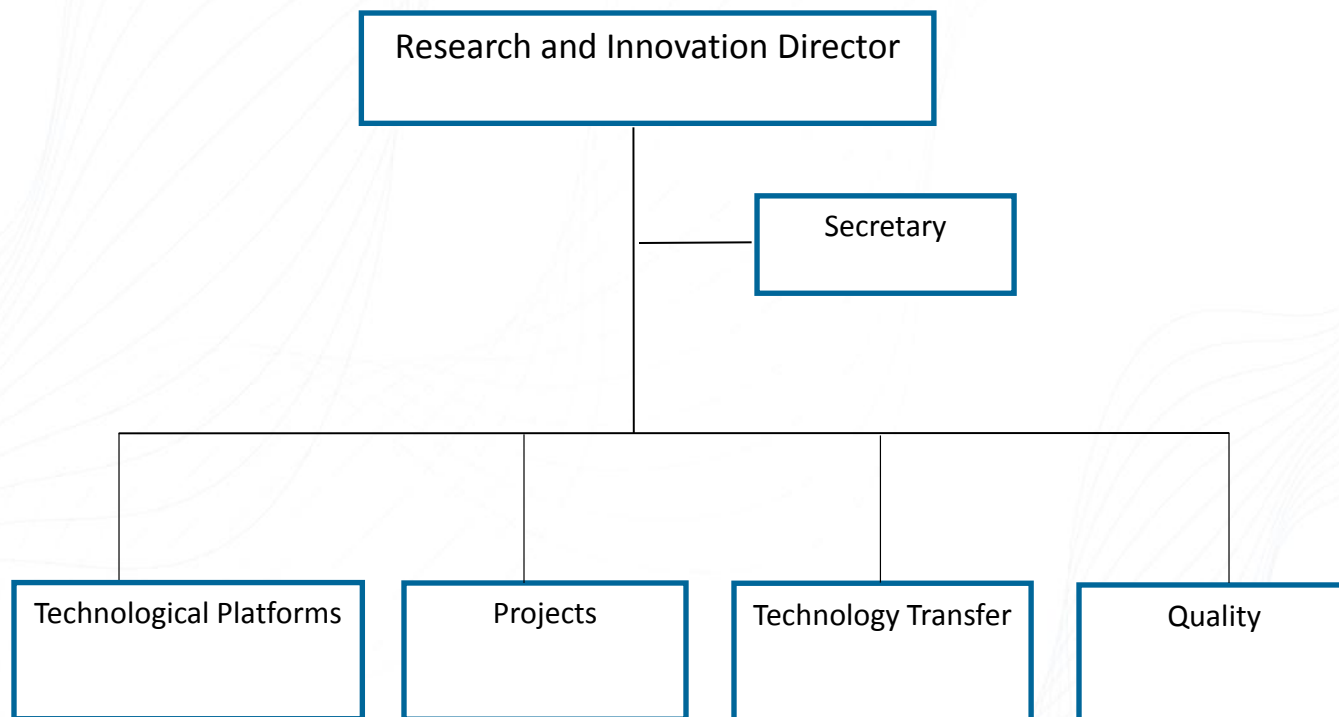

75 Companies

9 Technological Platforms

36 Technological Units

3 Research Institutes

75 Companies / 9 Technological Platforms / 36 Technological Units / 3 Research Institutes

1. People

1. Employees: 10 Platform managers , 80 Technicians, (PhD, graduates, administrative staff, *GCSE*)
2. Clients :
 1. Companies
 2. Research Centres

2. Equipment

1. Acquisition
2. Assignment
3. Maintenance
4. Strategy

3. Finances

1. PCB: around 30 million Euros.
2. Income from services, subsidies and loans.

4. Spaces

36 scientific and technological units

75 Companies / 9 Technological Platforms / 36 Technological Units / 3 Research Institutes

↳ 9 Technological Platforms

PT Plataformes
Tecnològiques

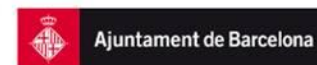

Combinatorial Chemistry
Transcriptomics
Proteomics
Nanotechnology
Crystallography
Animal research
Experimental Toxicology and Ecotoxicology
Drug Discovery

↳ Centre Nacional d'Anàlisi Genòmica

↳ Other scientific services

- Core Scientific Services
- Radioactivity Unit
- Special Reactions Services
- Scientific-Technical Services UB
